Subject: Comments for Draft Guideline Norovirus
Attachments: NORO.jpg; NORO_02.jpg

Dear Ms. King:

Attached are two scanned pages of my comments for the Federal Register Notice of June 16, 2010 Docket 2010-14402 due today. My career has been in infectious disease epidemiology, public health, infection control and occupational health. I read the supporting research carefully to support my comments. I have investigated at least two norovirus outbreaks among both patients and staff one in a pediatric hospital and one in a nursing home. I have personally experienced the illness after caring for a patient. Thank you for developing the guideline and for the opportunity to comment.

Sincerely,

Charlotte Carneiro RN,MS, COHN-S, CIC
Bethesda, MD
